

Course : _____

CANVAS Score : _____

Student Evaluation Form

Part Two of the Safety Training for the Student Shop

Student: _____ Student Status: _____
(undergrad, grad)

Evaluator: _____ **Pass / 1 Fail 2**

Directions to the Student: After completing part one testing on Canvas, (passing with at least 80.00% total on all tests) be sure you understand all the questions and answers in part one before attempting our part two test. Some questions are judgement questions. Their answers may not all be found in a textbook or manual. Contact the Student Shop Manager if you have any questions about any part one test.

Directions to the Evaluator: After the student has successfully taken part one of the safety training, the student is required to fill out this entire form completely and present it to you before they attempt our part two test. The student's CANVAS score (80.00 points or better) information must be filled in on this sheet. The student will come into the Student Shop during the testing time to attempt the part two test of our safety training. The student should be confident of this material before attempting our part two safety test in the Student Shop. Once their test is started it will count as their attempt for the day.

These safety tests are designed to check the ability of the student to answer basic shop questions. These answers may be found in the Student Shop Safety Manual, Student Shop videos, or using basic judgement skills in some situations.

Information and effective testing of the Student Shop's safety procedures are an important part of our safety-training program.

This is the Pratt School of Engineering Student Shop. Only students from Pratt are allowed to use this Student Shop for designing, manufacturing, assembling, & testing of their projects that are required in their coursework for a grade. No personal projects are ever allowed.

Course : _____

Furthermore

I have read, understood the safety rules and operation of ALL equipment provided in the Student Shop. I have watched the Safety and basic operation videos for the machines in Student Shop. I will follow all safety regulations indicated while working in the Student Shop. I understand that not following all the Student Shop protocols will result in penalties (badge punches, suspension of shop access, etc.) and could result in a personal injury, death, or other unwanted consequences. I agree to abide by all rules & regulations of the Student Shop. I will leave the machines & the shop area I use clean, swept, with my tools returned to their proper places, & the area ready for the next student to use. If my area is found unacceptable, I will clean it until it is acceptable or understand I will face penalties for leaving it in an unacceptable condition. I accept personal responsibility for my work, my words used, and my actions in All areas/rooms of the Student Shop.
